

Enterprise Backpack

The Enterprise™ is our largest office bag designed to boldly go where no man (or woman) should ever have to go... work. Color: Black.

Retail: \$100 **Price: \$65**

Lamina 20° Sleeping Bag

The Mountain Hardwear Lamina 20-Degree Synthetic Sleeping Bag features Mountain Hardwear's proprietary Thermic Micro insulation. This insulation is high-loft and compressible like down, but it doesn't lose its warmth if it gets wet. The Thermic Micro is welded directly to the bag, which eliminates the need for baffles, increases durability, and decreases cold-spots. The soft polyester lining wicks moisture away from you, while a waterproof titanium dioxide membrane on the outside of the polyester and a DWR-treated nylon shell fabric help increase toughness for long-term outdoor exposure. The Mountain Hardwear Comfort Footbox lets your feet rest in a natural position and keeps them cozy as you snooze. Color: Blue Ice.

Retail: \$160 **Price: \$112**

Hammerhead II and Hammerhead III Tents

Hammerhead™ 2 and 3 are Mountain Hardwear's best selling camping tents for warm weather. Hammerheads are free-standing, two and three person tents with a neat, convertible roof panel that opens to reveal the stars, and two huge vestibules for storage. Mesh windows roll back for additional venting. Three Atlas 7001 poles hold it all together. Guaranteed watertight construction.
